

Career Program for Life Sciences

for female PhD students, postdocs, and group leaders

Are you a female scientist at the crossroad between university and industry?

feminno offers career development for women scientists interested in the science-innovation interface.

Experienced career advisers, coaches, innovation experts, and executives from successful life-science enterprises share their work experience and visions with you.

- o What is your next career move?
- o Do you want to work in the Research & Development department of a private enterprise?
- o Do you seek to develop your own innovation product out of your research?
- o What competencies are required for this?
- o What funding opportunities are suitable?
- o How do you envisage combining your career and private life?

Who can apply?

The program addresses female researchers from the Life Sciences currently working as a PhD student, postdoc, or group leader at the University of Zurich, ETH Zurich, or University of Basel. A maximum of 20 women per call will be admitted.

Call 1

Opens on Oct 1, 2017
Closes on Nov 30, 2017 (12:00)
Notification of acceptance on Jan 6, 2018

Call 2

Opens on June 1, 2018
Closes on Aug 20, 2018 (12:00)
Notification of acceptance on Sept 30, 2018
