

Alpine Plant Ecology

Summer School on Alpine Plant Life

Swiss central Alps, 15- 21 July 2018

Erika Hiltbrunner, Christian Körner, Jürg Stöcklin

University of Basel

Jonathan Levine

ETH Zürich

This graduate course is offered by the University of Basel and the Zürich-Basel Plant Science Center (PSC) for advanced biology students with basic plant science training. Course topics include microclimatology, ecophysiology, biodiversity, reproductive biology, vegetation and ecosystem ecology. The course will include lectures, field excursions and project work. Participation is limited to 24 students. Full board costs are CHF 400 (exclusive travel expenses).

Location:

ALPFOR Alpine Research
and Education Station
Furka Pass, 2440 m a.s.l.
Swiss central Alps

Registration: PhD students register at franziska.grob@unibas.ch, at MOA (Univ. of Basel students) and PSC PhDs at PSC. Pre-registration (with motivation letter) until 28 February 2018. Acceptance information: 9 April 2018, confirmed registration: 31 May 2018.
