Abstract

The participants will use the Business Model Canvas innovation tool to approach their start-up challenge or opportunity and learn how to present it in a clear structure.

Participants will learn to identify and communicate the nine key elements of a business model: Customer Segments, Value Proposition, Channels, Customer Relationships, Key Resources, Key Activities, Key Partners, Revenue Streams, and Cost Structure.

The completed project at the end of the course will be a polished Business Model Canvas that outlines the business case for a new product or service to address your selected challenge or opportunity. The final results of the participants will be presented with a short pitching deck by the participants at the end of the workshop.

Please note: On these 2 days we also get a short introduction to ETH entrepreneurship and UZH Innovation Hub (30 min each)
