Urban Agriculture

Food or Future: Should tomorrow's cities grow their own food?

24th Oct. 2018, ETH Zurich, LEE E 101, 5-7 pm
Public Round Table & Apéro

Invited speakers

Giorgio Gianquinto, University of Bologna
Heidrun Moschitz, FiBL
Joëlle Salomon Cavin, University of Lausanne
Fabian Weinlaender, Urban Farmers

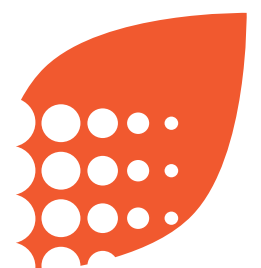

Supported by:

Zurich-Basel Plant Science
Center Mercator Stiftung
Schweiz

Organizers:

Tiago Meier, U Zurich
Sergei Schaub, ETH Zurich
Kevin Vega, ETH Zurich
Eva Maria Vorkauf, U Basel

Urban agriculture has the potential to contribute to food security and social well-being in cities while simultaneously increasing overall sustainability of food production. However, many uncertainties remain with respect to potential risks, limitations, and overall feasibility. During this Public Round Table, experts will discuss future opportunities and challenges in order to inform the public about the manifold aspects of urban agriculture.
