

**Universität
Zürich** UZH

ETH zürich

Zurich-Basel Plant Science Center

PSC Symposium

November 7, 2014, ETH Audimax HG F 30

Organized by PSC PhD students

«rooted:
successful strategies
of sessile beings»

John L. Bowman, Monash University, Melbourne

Liam Dolan, University of Oxford

Wolfgang Busch, GMI Vienna

Marc Boutry, Université catholique de Louvain

Didier Reinhardt, Université de Fribourg

Markus Schmid, MPI Tübingen

Delphine Chinchilla, University of Basel

Ian T. Baldwin, MPI Jena

Consuelo De Moraes, ETH Zürich

More information and registration at

www.plantsciences.uzh.ch/outreach/conferences/symposium.html

Supported by the Graduate Campus Zurich

Program:

8:30-8:40 Opening remarks by PSC Chairman
Prof. Samuel C. Zeeman, ETH Zürich

8:40-11:10

Session I: *Adaptation to abiotic factors*

Prof. Marc Boutry, Université catholique de Louvain

Prof. Didier Reinhardt, Université de Fribourg

Dr. Markus Schmid, Max Planck Institut Tübingen

***Ezequiel Lentz**, ETH Zürich

Coffee break with Poster session

11:10-14:30

Session II: *Root development and evolution of land plants*

Prof. John Bowman, Monash University

Dr. Wolfgang Busch, Gregor Mendel Institut Wien

Prof. Liam Dolan, University of Oxford

***Dr. Marie Barberon**, Université de Lausanne

Lunch with Poster session

14:30-16:50

Session III: *Cross-kingdom interactions*

Prof. Ian T. Baldwin, Max Planck Institut Jena

Dr. Delphine Chinchilla, Universität Basel

Prof. Consuelo De Moraes, ETH Zürich

***Dr. Kelsey Byers**, Universität Zürich

Closing remarks and poster prize

Apéro

Note: * indicates talk by a young scientist.
